

Week 8 Homework

Due to likely upcoming midterms for all of us, this homework will be very light.

In this homework, you are going to install **mySQL** which is a **Structured Query Language** Database Management System, and is widely use today by such popular websites as Livejournal, Travelocity and Wikipedia to store information.

phpMyAdmin which is a tool in PHP that will allow you to control you MySQL datab ase over the web.

Part 1

- 1) Using **apt-get** install MySQL.
- 2) Using **apt-get** install phpmyadmin.

Email the commands you ran to **dima+decal@ocf.berkeley.edu..**
